

## Step 1

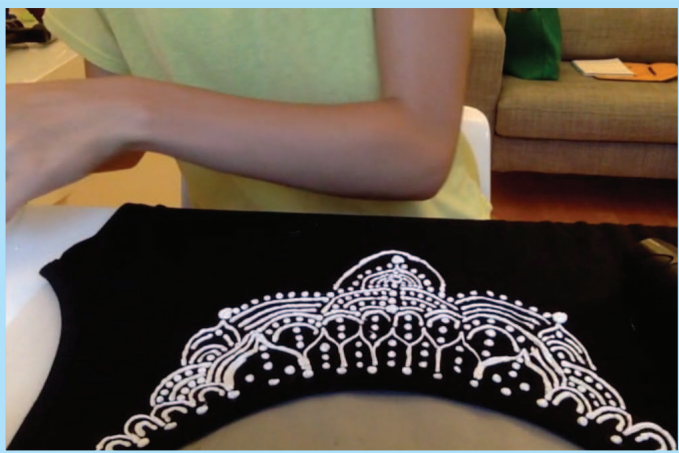

Choose a clothing you could like to doodle on and place tracing paper between the clothing.

## Step 2

Make sure you use PLA plastic for this doodle.

## Step 3

Decorate your own shirt.

## Tips

- Try not to doodle continuous designs. If you doodle smaller designs, the clothing will feel more flexible when you wear it.
- DO NOT wash this in the washing machine. Some 3Doodle plastic will not stay on the shirt permanently!
